Start with a square piece of paper. Turn over so the green side is down.

1. Fold opposite edges together, then unfold. Repeat with the other edges. Open it up into a square again.

2. Fold each of the four corners to the center point.

3. Fold each of the two top edges to the center line.

4. Fold the bottom portion upwards (along the dotted line).

5. Fold the triangle at the bottom upwards.

6. Fold each of the bottom corners to the middle of the paper.

7. Fold the bottom half of the lower rectangle downwards toward yourself. This forms the frog's legs.

8. Fold the top half of the lower rectangle downwards toward the body.

9. Give your frog a head by folding a small part of the upper point downwards. Draw two eyes!

To make your frog jump, push down on the “X” and slide your finger down.

Turn over and start folding!
